

OUR QUALITY POLICY

We recognise that all work is done through processes and so we manage our activities and resources accordingly. We also recognise that achieving objectives requires a system of inter-related processes. Continual improvement is a permanent organisational objective. We recognise that further improvement to existing processes is always possible.

Management acknowledges that our decisions should always be based on the analysis of factual data and information. We therefore focus on monitoring and measuring of our processes in order to assess our efficiency and our ability to meet customer requirements. In addition, we aim to utilize the synergy possible through supplier relationships so that both companies are able to enjoy enhanced value.

Management of Maslow Skye Industrial hereby commits itself to a quality management system based on the ISO 9001: 2015 standard.
